## AAST Open Ended Questions

### What did you like most about this course and instructor?

Comments
It is nice having two instructors because it gives more perspective.
I liked the discussion questions
great guy
friendly and helpful
Roy appears to have a passion for teaching and I enjoyed the classes where he had the opportunity to talk about some of the readings. I also liked how he set up the modules.
I really enjoyed Roy's perspective on the topics and his obvious passion for the topics. He was very personable and an engaging presenter which made class time more enjoyable. I also felt that he was very good at facilitating discussion among students. I also really enjoyed his push for students to submit their works to scholarly journals and also to look into more opportunities for AAST.
So good at his job. He made sure the class was prepared and set up. He also was a good encourager to students to do their best.

Roy was helpful in setting up the base of the course on canvas and clarifying instructions

### What did you like least about this course and instructor?

Comments
Sometimes didn't seem very attentive or just looked lost.
I didn't like the organization of the canvas page
no
sometimes did not follow syllabus
I think it would have been nice for Roy to speak up more in class because sometimes it seems like he wants to say something but holds back from doing so.
I wish I could hear this instructor's input more during class. I really do enjoy both instructors, but I think both instructor's viewpoints are important and necessary to give students a better overall understanding of the subject matter. Roy is very obviously knowledgeable in these topics and I feel that his thoughts help me better understand the issues that affect the AAPI community.

Amount of last-minute preparedness for the final presentation and paper. It all crept up very suddenly. I wish there were more deadlines mid-semester to motivate us to write the rough drafts and such.
